Resources for Background Information

Specialized reference works such as encyclopedias, dictionaries and companions are useful for obtaining background information and recommended readings on a topic, clarifying concepts and providing relevant keywords that can be used when searching article indexes and databases. Many of these resources are available online, through library subscriptions, others are available in print and are shelved in the Reference Collection in Stauffer Library (main floor). **Research Tools: Summon**

Search across the library catalogue and many of our electronic resources, all from one search box. Summon contains everything found in the traditional QCAT Library Catalogue, plus millions of full-text articles available from the Library.

[http://library.queensu.ca/summon](http://library.queensu.ca/summon)

![Summon search box](image)

**Figure 2: Screen capture of the Summon search box on the library homepage**

After performing a search, use the facets along the left-hand side to refine or limit your search results:

- **Content Type**
  - Any
  - Journal Article (843)
  - Thesis/Dissertation (244)
  - Newspaper Article (2)
  - Book (2)
  - more options

To learn more about Summon, consult the Summon FAQ page:  
[http://library.queensu.ca/summon](http://library.queensu.ca/summon)
Research Tools: Library Catalogue (QCAT)

Search the library catalogue (QCAT) to find materials (such as books, videos, journals, newspapers and government documents) available, in print and online, at Queen’s University Library.

- Search by **Author**: last name first name
- Search by **Title**: omit initial articles (the, a, an, le, la…)
- Search by **Journal (Periodical) Title**: eg Hispanic Review
- Search by **Keyword** (“and” is automatically placed between words)
- Search by **Keyword Boolean**:

To narrow the scope of your search you can join together your search terms (keywords) using special sets of predefined words, known as “Boolean operators.” Boolean operators are used to indicate the relationship(s) between words/concepts. They are: [and, or, not, “a phrase”]. In addition, there are special characters (such as “?” for truncating) that allow you to perform more sophisticated searches.

Tips for searching the library catalogue, QCAT, are available in QCAT. Various “how-to” guides and video tutorials are also available: [http://library.queensu.ca/help/guides](http://library.queensu.ca/help/guides)

http://library.queensu.ca/research/guide/philosophy/article-indexes, or, use the Databases Tab on the library homepage, where you can enter the name of the database you wish to search, or browse databases by subject:

![Figure 4: Screen capture of the Databases tab on the library homepage](image)

Connecting from off-campus? You will be prompted to enter your NetID and password when you click on a link to the database. You can also sign in to the Queen’s web proxy server prior to beginning your library research at:

to determine if the information they provide is accurate or useful. Critically evaluating the information you find is central
to successful academic research. For evaluation criteria, see the Library’s guide to Evaluating Web Sources
